DETAILED ACTION

Allowable Subject Matter

Claims 1-109 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 form of the previous Office action. None of the references or combinations thereof disclose or suggest an irradiation area of the continuous wave laser beam at the semiconductor film has an oval shape having an aspect ratio of 10 or more, and wherein the continuous wave laser beam is a second harmonic of a solid laser. Moreover, none of the references disclose or suggest irradiating the semiconductor film with a continuous wave laser beam to crystallize the semiconductor film; forming a source region, a drain region, and a channel region in the semiconductor film; and irradiating the source region the drain region with a linear laser beam of excimer laser, wherein the continuous wave laser beam is a second harmonic of a solid laser, as required by some of the independent claims. Therefore, the claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
